Skunk	1
Squirrel	12 - 15

2025-2026 Season Buck Inventory

Name	Age est. (yrs)	Rack / Points	Distinguishing Features	Typical Behavior / Notes	Estim B and C
Mr. Clean	6½	8 pt main frame	Dark, rough antler bases with very bright, polished outer beams; big mature frame	Regular on same ridge system; calm, confident	120 - 125
Rocky	4½	8 pt main frame	Clean, symmetrical 8 pt; large, heavy body; right main beam tip has a hooked look	Mostly at night in higher, rocky elevations; heavier than Brutus	110 - 115
Brutus	3½	8 pt main frame	Heavy body; long beams; right G1 a bit longer than left	Mature acting buck; one of the herd anchors	105 - 110
Bart	3½	6 pt (3x3)	Clean 6 pt; decent beam length; narrower rack	Daylight traveler; calm and comfortable on camera	N/A
Sidekick	2½	8 pt type	Balanced rack, lighter mass than Brutus	Subordinate 8 pt that tends to hang back	90 - 100
Goofy	1½ - 2½	3 pt / forked rack	One forked goofy antler; asymmetrical rack	Odd antler, otherwise average body	N/A
Spur	1½	Spike (2 pts)	Both antlers spike like, fairly even length (about 5-6 in)	Typical yearling spike	N/A
Scout	1½	Spike (2 pts)	Pure, even spikes both sides; often right up in the camera	Very curious, not intimidated by the camera	N/A
Shortstack	1½	Spike (2 pts)	Uneven spikes, one side much shorter than the other	Smaller frame; likely subordinate	N/A
